PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.435 *Lemon Regulation 328—(a) Findings.* (1) Pursuant to the market-

R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. (2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the *FEDERAL REGISTER* (60 Stat. 237; 5 U. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on April 26, 1950, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. (1) Pursuant to the provisions of Order No. 66 (7 CFR Part 966; 14 F. PART 989—HANDLING OF RAISINS PRODUCED FROM RAISIN VARIETY GRAPES GROWN IN CALIFORNIA

ORDER SUSPENDING CERTAIN PROVISIONS

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act," and of the marketing agreement and order (14 F. R. 5136) regulating the handling of raisins produced from raisin variety grapes grown in California, hereinafter referred to as the "order," it is hereby found and determined, that:

(1) The provisions appearing in the second sentence of § 989.4 (g) (1) of the order will not, on and after 11:59 p. m., P. d. s. t., April 30, 1950, tend to effectuate the declared policy of the act, said provisions reading as follows: "The committee shall dispose of: (i) All surplus tonnage held by it or for its account on March 1 of any crop year within 60 calendar days subsequent thereto; and (ii) any surplus tonnage raisins acquired between March 1 and the end of such crop year, or any reserve tonnage which becomes surplus tonnage during such period, within 60 calendar days after acquisition or after becoming surplus, as the case may be."

(2) In accordance with the Administrative Procedure Act (5 U. S. C. 1001 et seq.), notice of proposed rule making, public procedure thereon, and publication or service of this suspension order 30 days prior to its effective date hereby are found to be impracticable, unnecessary, and contrary to the public interest in that it is imperative to issue this suspension order so that it will become effective prior to May 1, 1950. By the terms of the order, any surplus tonnage held by the Raisin Administrative Committee for program operations on March 1 of any crop year must be disposed of within 60 calendar days subsequent thereto, which period, insofar as the current crop year is concerned, will expire on May 1, 1950, and it is not practicable for the aforesaid committee to make disposition, at a reasonably satisfactory price, of such surplus tonnage by that time. There is not sufficient time intervening before that time to permit notice of proposed rule making, public procedure thereon, and publication or service of this suspension order 30 days prior to its effective date. The changes effected by this suspension action will not require substantial or extensive preparation prior to its effective date, but the time intervening prior to such effective date affords the persons affected a reasonable time to prepare therefor.

It is therefore ordered, That the provisions appearing in the second sentence of § 989.4 (g) (1) of the order be, and they hereby are, suspended on and after 11:59 p. m., P. d. s. t., April 30, 1950, which provisions read as follows: "The committee shall dispose of: (i) All surplus tonnage held by it or for its account on March 1 of any crop year within 60 calendar days subsequent thereto; and (ii) any surplus tonnage raisins acquired between March 1 and the end of such crop year, or any reserve tonnage which becomes surplus tonnage during such period, within 60 calendar days after

acquisition or after becoming surplus, as the case may be."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Supp., 606c)

Issued at Washington, D. C., this 26th day of April 1950.

[Docket No. 9638]

GLOBE WIRELESS, LTD.

ORDER DESIGNATING APPLICATIONS FOR HEARING ON STATED ISSUES

In the matter of Globe Wireless, Ltd., applications for construction permits to authorize the move of certain transmitters to transmitting stations of Press Wireless, Inc.; Docket No. 9638, File Nos. 13681-C4-P-D, 13682-C4-P-D, 13850-C4-MP-E.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 21st day of April 1950;

The Commission, having under consideration two applications (File Nos. 13681-C4-P-D and 13682-C4-P-D), filed on February 25, 1949, and an amendment to one of said applications (File No. 13682-C4-P-D), filed on August 31, 1949, by Globe Wireless, Ltd., for construction permits, wherein authority was sought to move certain of its transmitters, then located at Mussel Rock, California (File No. 13681-C4-P-D), and Woodcliff Lake, New Jersey (File No. 13682-C4-P-D), to the transmitting sites of Press Wireless, Inc., located at Belmont, California, and Hicksville, New York, respectively; the agreements between Globe Wireless, Ltd., and Press Wireless, Inc., filed on February 25, 1949, and revisions thereof filed on July 13, 1949, which agreements, as revised, set forth the terms and conditions of the installation, operation and maintenance of the aforementioned transmitters at the above-mentioned stations of Press Wireless, Inc.; and having also under consideration a third application (File No. 13850-C4-MP-E), filed on January 30, 1950, by Globe Wireless, Ltd., for a construction permit, wherein authority

is sought to install an additional transmitter at the transmitting site of Press Wireless, Inc., at Hicksville, New York;

It appearing, that on October 3, 1949, the applications bearing File Nos. 13681-C4-P-D and 13682-C4-P-D were granted by the Commission (Chairman Coy and Commissioner Sterling voting to designate these applications for a hearing, and Commissioners Hyde and Hennock not participating), with public notice of the Commission's action being given on October 4, 1949;

It further appearing, that on October 24, 1949, within the twenty days provided by section 405 of the Communications Act of 1934, as amended, and § 1.390 of the Commission's rules and regulations, the American Communications Association-CIO filed a formal Petition for Reconsideration, wherein it was requested that the construction permits which had been granted to Globe Wireless, Ltd., as recited above, be withdrawn and the applications therefor be denied, or, in the alternative, that the matter be set down for hearing; it being contended in said Petition that a grant of the applications is not in the public interest; that a grant of the applications, in effect, results in a partial merger of the facilities of Globe Wireless, Ltd., and Press Wireless, Inc., and in a closing down of Globe Wireless' facilities; that, in determining the public interest, the Commission must consider the status of employees who have been displaced and give some consideration to their protection; that the transfer of the transmitters to Press Wireless' sites will impose a very substantial burden on Press Wireless' employees, which presents potential dangers to service and to the health of the employees; and that, inasmuch as Press Wireless' employees will actually operate the Globe Wireless transmitters, the proposed operations will result in a violation of section 310 (b) of the Communications Act;

It further appearing, that on October 31, 1949, Globe Wireless filed a formal Opposition to the above Petition for Reconsideration, in which Opposition Globe Wireless took issue with the allegations and contentions in said Petition and requested a dismissal thereof;

It further appearing, that, upon reconsideration of the above grants of October 3, 1949, of the applications of Globe Wireless, in the light of the matters developed by the above Petition for Reconsideration and the Opposition thereto, substantial questions are presented, so that the Commission is unable to determine that public interest, convenience or necessity would be served by a grant of said applications, and that, therefore, the above grants should be set aside; and that the applications upon which such grants were based should be designated for hearing;

It further appearing, that, since Globe Wireless has installed its transmitters at the Press Wireless Stations pursuant to the grants which are herein being set aside, a period of time will be necessary for Globe Wireless to make the required adjustments in its operations;

It further appearing, that Globe Wireless' above-mentioned application bearing File No. 13850-C4-MP-E is related to the other applications which the Commission has decided should be designated for hearing herein;

It is ordered, That the above Petition for Reconsideration is granted insofar as it requests that the above grants of October 3, 1949, be withdrawn and that the matter be set for hearing; and, accordingly, pursuant to section 405 of the Communications Act of 1934, as amended, and § 1.390 of the Commission's rules and regulations, the grants made by the Commission on October 3, 1949, of the Globe Wireless, Ltd., applications, File Nos. 13681-C4-P-D and 13682-C4-P-D, are set aside, effective June 1, 1950; and, pursuant to sections 309 (a), 310 (b), 319 and 405 of the Communications Act of 1934, as amended, the above-described applications of Globe Wireless, Inc. (File Nos. 13681-C4-P-D, 13682-C4-P-D and 13850-C4-MP-E) are designated for hearing to determine whether the public interest, convenience or necessity would be served by granting said applications, in the light of the following:

(1) Whether it would serve the public interest, convenience or necessity to permit Press Wireless, Inc., to operate, at its own sites and with its own employees, the transmitting equipment of Globe Wireless, Inc., a competing United States radiotelegraph carrier;

(2) The nature and extent of the control which the applicant herein and Press Wireless, Inc., respectively, will exercise over the use, operation and maintenance of the equipment proposed to be moved to the Press Wireless, Inc., stations; and over the employees who will operate and maintain such equipment;

(3) Whether a grant of the applications herein would involve a transfer or assignment of any of the rights granted in applicant's outstanding licenses, or of any of the frequencies authorized to be used by the applicant, or of any responsibilities of the applicant as a licensee;

(4) What effect, if any, the proposed move of the transmitters would have on the speed and quality of service rendered by the applicant herein, and by Press Wireless, Inc.;

(5) What effect, if any, a grant of the applications herein would have upon competition, existing and potential, between the applicant and Press Wireless, Inc.;

(6) The effect of a grant of the applications herein upon the financial conditions of the applicant and Press Wireless, Inc., respectively;

(7) The effect of a grant of the applications herein upon the respective abilities of applicant and Press Wireless, Inc., respectively, to serve the public in accordance with their respective licenses;

(8) The effects of a grant of the applications on the employees of Globe Wireless, Ltd., and, in the event it is

determined that said applications should be granted, the nature of the provisions, if any, which should be required for the protection of Globe Wireless employees who might be affected by said grants.

It is further ordered, That hearings herein shall be held at the offices of the Federal Communications Commission in Washington, D. C., beginning June 19, 1950, at 10:00 a. m.

Released: April 24, 1950.

SCRANTON-SPRING BROOK WATER
SERVICE CO.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the city of Washington, D. C., on the 24th day of April A. D. 1950

Scranton-Spring Brook Water Service Company ("Scranton"), a public utility company and a subsidiary company of Federal Water and Gas Corporation, a registered holding company, having filed an application and amendments thereto pursuant to the third sentence of section 6 (b) of the Public Utility Holding Company Act of 1935, such application containing a request for an exception from Rule U-50 of the rules and regulations promulgated under the act, pursuant to subparagraph (a) (5) thereof, with respect to the following transaction:

Scranton proposes the issuance and sale of an additional \$1,000,000 principal amount of its First Mortgage Bonds 2½ Percent Series due 1976, at 101 percent of the principal amount thereof, to John Hancock Mutual Life Insurance Company. Scranton further proposes to deposit with the Trustee cash proceeds from the sale of said bonds equal in amount to the aggregate principal amount sold. The applicant states that as soon as possible after such sale it will withdraw from the Trustee all of such proceeds so deposited on the basis of net property additions available for funding as of December 31, 1949. When withdrawn from the Trustee, such cash will be applied by Scranton toward the repayment of \$1,010,000 of its outstanding bank loans which amounted to \$1,100,000 as of December 31, 1949. Said loans had been incurred by Scranton in connection with construction of the property additions available for funding as of December 31, 1949.

Said application having been filed on March 30, 1950; notice of such filing having been duly given in the manner prescribed by Rule U-23 under said act; and the Commission not having received a request for hearing with respect to said application within the period prescribed in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that the issue and sale of said bonds are solely for the purpose of financing the business of the company, and in particular for the purpose of repaying an equal amount of its outstanding bank loans; and that such issue and sale have been expressly authorized by the Pennsylvania Public Utility Commission, the State in which the applicant is organized and doing business; and

The Commission further finding that except for the one point premium, the proposed sale would be entitled to an exception from the competitive bidding requirements of Rule U-50, pursuant to paragraph (a) (4) thereof, and that, under the circumstances of this case, the proposed transaction should be excepted from the provisions of Rule U-50, pursuant to paragraph (a) (5) thereof; and

The Commission deeming it appropriate in the public interest and in the

interest of investors and consumers that said application, as amended, be granted, and the Commission further deeming it appropriate to grant the request of applicant that the order herein become effective forthwith;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that the application, as amended, be, and it hereby is, granted and that this order become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

AMERICAN GENERAL CORP. ET AL.

NOTICE OF APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 25th day of April A. D. 1950.

In the matter of American General Corporation, the Morris Plan Corporation of America, the Morris Plan Company (of St. Joseph, Missouri), and Harry C. Herschman; File No. 812-657.

Notice is hereby given that the Morris Plan Corporation of America (Morris Plan), 103 Park Avenue, New York, New York, has filed an application under section 17 (b) of the Investment Company Act of 1940 for an order of the Commission exempting from section 17 (a) of the act, the proposed purchase by Harry C. Herschman from Morris Plan of 354

shares of common stock and 148.68 shares of second preferred stock of the Morris Plan Company (the Company), a Missouri corporation, of 501 Francis Street, St. Joseph, Missouri, for an aggregate purchase price of \$15,000.

American General Corporation is a registered investment company with offices at 103 Park Avenue, New York, New York. American General Corporation owns in excess of 60 percent of the voting stock of Morris Plan. Morris Plan owns 148.68 shares or 11.13 percent of the outstanding second preferred stock of the Company and 354 shares or approximately 23.6 percent of the outstanding common stock of the Company. Harry C. Herschman, Vice-President of the Company, proposes to purchase all such shares of the common and second preferred stocks of the Company owned by Morris Plan. The proposed transaction therefore involves the purchase by an affiliated person of an affiliated person of a registered investment company, from a controlled person of such investment company, of securities of which the seller is not the issuer. Such a transaction is made unlawful by section 17 (a) of the act unless an exemption therefrom is granted by the Commission under section 17 (b) of the act. Accordingly, Morris Plan requests an order pursuant to section 17 (b) exempting the proposed transaction from the prohibitions of section 17 (a) of the act.

The Company was organized under the laws of the State of Missouri in 1916. The principal business of the Company consists of making co-maker, collateral, direct, correspondent and dealer retail loans. In 1937, the Company was reorganized in a federal court and when reorganized issued first preferred, second preferred and common capital stock. At the present time, approximately 1,335 shares of first preferred stock, 1,335 shares of second preferred stock and 1,500 shares of common capital stock are outstanding. For the ten years 1940 to 1949 inclusive, the net earnings of the Company ranged from a deficit of \$6,397 in 1947 (during which year a bond premium amortization charge of \$33,521 was made against income) to a net profit of \$40,907 in 1949. During this ten-year period, the Company paid no dividends except the cumulative dividends required to be paid on its outstanding first preferred stock at the rate of \$5.00 per share per annum.

The application states that, although the Company has made no commitment with respect thereto, it is anticipated that at some future date the Company will purchase at a price of \$77.07 per share or a total purchase price of \$11,460, the 148.68 shares of second preferred stock Herschman now proposes to acquire. If such second preferred shares are so purchased from Herschman by the Company, the cost to him of the common stock would amount to \$10.00 per share. It is further stated that Herschman will purchase the 354 shares of common stock of the Company as nominee for the ten directors of the Company (including himself) and that each director will then acquire 35.4 shares of such stock at a cost of \$10.00 per share. Acquisition of such 354 shares of com-

mon stock will give the board of directors, as a group, ownership of a majority of the common stock of the Company. The Company's securities have been traded over-the-counter in St. Joseph, Missouri at infrequent intervals but no reliable market for such stocks appears to exist. As of December 31, 1949, the net asset value of the second preferred stock of the Company amounted to approximately \$68.75 per share while the common stock has no asset value. Morris Plan carries on its books its holdings of the Company's second preferred stock at \$10,222 and its holdings of the Company's common stock at \$1.00. The application asserts that the proposed purchase price of \$15,000 for such stock of the Company is fair and reasonable.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to said application which is on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time after May 12, 1950, unless prior thereto a hearing upon the application is ordered by the Commission, as provided in Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than May 10, 1950, at 5:30 p. m. submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.
